INTRODUCTION.

The number of Newspapers and Periodicals enumerated in this edition of the AMERICAN NEWSPAPER ANNUAL is 22,436, or 128 more than given in the issue for 1899.

Although the actual increase in the total number is small, about the usual number of new papers have been started during the year, and this edition contains the names of 2,357 publications which are not found in the previous one. This number—about ten per cent. of the whole—includes papers started or resumed since the last publication of the ANNUAL, but does not include consolidations under their new titles and removals from one locality to another, or only partial changes of name. The tendency toward consolidation still continues.

In accordance with our usual custom there are several hundred publications which we do not insert, having no value for the general advertiser or the general public. Among them are those issued by private and high schools, the smaller colleges, local church papers, and publications issued in the interest of institutions, unless having an influence outside of the particular one by or for which they are published. Care has also been exercised in the selection of newspapers and periodicals which rightly come within the scope of this work. Experience teaches that it is not wise to insert every paper that comes to hand in its first or early number; for, while the exclusion may be unfortunate in a few instances, much dead matter is thereby kept out of the book; not a few of these ventures never reaching beyond their first number, and very many failing to maintain an existence of over a few weeks.

It will be seen by the Summary and Comparative Statement (p. 9), that there is a gain of 10 only in the number of counties in which papers are published, several counties in the Southern section which had papers last year having been without any at the time our information was gathered. The number of towns in which papers are published is 9,178, an increase of 123. The whole number of county seats is 2,751; a gain of two only. There is a gain of 26 in the number of dailies. The tri-weeklies have gained 5. The semi-weeklies number one less than last year. The number of weeklies recorded is 76 greater than in 1899.

NEW FEATURES.—In addition to having the maps carefully revised to date, so that practically every newspaper town contained in the ANNUAL will be found on them, we have indexed each town in order that it may be readily located if reference to it is desired. The reference follows the population of each place, as (G 5,) etc., the letters referring to vertical divisions and the figures to horizontal ones. To facilitate reference where the county in which the town is situated is large, or a number of counties are contained within any one of the divisions, and the place desired is located on, or a little above, or a little below the horizontal line, we have marked it thus, (G 5 $\frac{1}{2}$,) etc. All places so marked will be found very near the line between the number given and the next higher one.

In place of the population tables which have hitherto immediately followed the Table of Contents and which were arranged alphabetically by towns, and embraced only places of 5,000 inhabitants and upward, we have in this edition extended the list to include places of 3,000 and have arranged the whole alphabetically by States, and by groups in each State as

follows: Towns of from 3,000 to 5,000, 5,000 to 10,000, 10,000 to 20,000, 20,000 to 50,000 and 50,000 upward (pages 10 to 17 inclusive).

CUBA, PORTO RICO AND THE WEST INDIES.—The improved conditions in Cuba and Porto Rico have enabled us to give practically complete lists of all papers published in those islands which possess any interest for the general advertiser. The lists as presented in this edition, are subject only to such changes as are continually taking place in the newspaper world, whether in the United States or elsewhere.

POPULATION.—Population is taken mainly from the official reports of the United States census of 1890 and the Canadian census of 1891. Iowa, Kansas, Massachusetts, Minnesota, New Jersey, Rhode Island, South Dakota, Utah and Wisconsin took census in 1895 and the populations in those States are from the official reports. Population in Michigan is from the State census of 1894. Figures taken from any other source are marked with an asterisk (*), signifying that they are estimated.

STATE AND COUNTY HEADINGS.—The State and County headings have been carefully revised and brought up to the present time. The State headings especially are exceedingly interesting and instructive reading, giving concise and valuable statements of the wonderful resources and growth of the country. The county headings are of great value to advertisers of specialties, who, by carefully examining them can readily decide which counties are likely to prove remunerative territory, and thus confine their expenditures within limits which may be expected to yield the greatest return for their outlay.

TOWN HEADINGS.—These headings have also been carefully revised. The location of the county in the State is given by a system of initial letters, which enables the reader to find quickly any county on the map, or to determine its location, no matter what may be the contour of a State, or however numerous may be its counties. The distance of the town, and in most cases the direction from some prominent point is given; its means of communication by railroad, water or stage; whether it is a telegraph and express station or not, and if not, what the nearest telegraph or express point is. If a place has a bank the word "Bank" appears, if more than one, "Banks," if there is no bank in the place the nearest, or most accessible, or the usual banking town for that point is given. Then follows the description of the place itself, setting forth as fully as possible its advantages of location, the nature of the surrounding district, with its productions, agricultural or otherwise, the leading manufactures, and educational and other public institutions.

SUB-EDITIONS.—We endeavor to distinguish between independent and distinct publications and those which are simply reprints of some other paper with but little and often with no change whatever beyond the name. All papers so issued, as far as it was possible to trace them, are entered in the Catalogue under the name of the leading paper, and, under the place of apparent publication, the name of the sub-edition is given with a reference to the paper issuing it. In the County List these sub-editions do not appear at all; the main paper has an italic note referring to the Catalogue for information respecting its sub-edition or editions. It is very difficult at times to determine positively this question of similarity of issue. Publishers of such papers generally are not willing to give information nor to send sample copies, and it is possible that in some instances an error may have been made either in quoting a paper as a sub-edition of another, when it would be fairly entitled to an independent entry if all the facts were known, or in giving a paper an independent standing when it is not entitled to it. Every effort however, is made to guard against either of these possibilities.

NAMES OF EDITORS AND PUBLISHERS.—No labor has been spared in the effort to have this department of the work as accurate as possible at the time of going to press; the continual changes of ownership and places of publication, however, necessarily preclude absolute accuracy.

POLITICAL STATISTICS.—In accordance with our established custom the political statistics are those of the latest Presidential election.

CIRCULATION.

The form sent to every publisher when the revision of the ANNUAL commences contains the following:

By CIRCULATION we do not mean the number of readers, on a basis of five (or any other number of) readers to each copy of the paper; nor do we mean sheets, nor impressions. The legitimate circulation of a newspaper or a periodical is its regular, necessary issue, sent to names on its honestly compiled mailing list or subscription book; sold over the counter, or through news agents or news boys. Returned and unused papers should not be included in the count.

Our understanding of the term "CIRCULATION" is embodied in the above paragraph. The word "AVERAGE" is liable to be misinterpreted. It is the custom of some publishers to issue occasional large extra editions; to add these and the regular editions together for a given time, and divide the total by the number of days, weeks or months, as the case may be, contained within that period. This is not what we desire. By "AVERAGE CIRCULATION" we mean that number of complete copies which *usually* fills the needs of the mailing lists, and the demand either in or out of the office.

Averages made up by including one or more large editions are not available; the only fair average is one which is made from a uniform, a slightly fluctuating, or a steadily growing circulation.

Statements in detail enable us to see to what extent special or extra editions figure in the issues of a given period, and when such statements are furnished, publishers may rely on being rated fairly, and they will have no cause of complaint against us, if, in the absence of such reports, our ratings are inadequate.

SWORN DETAILED STATEMENTS covering a period of not less than six months preceding date of report we consider the strongest kind of statements that can be made. All such are printed in **bold face type** throughout the book, and marked with a star (*). Detailed statements, not sworn to, are marked only by a star (*). A double dagger (‡) indicates the publisher's claim unsupported by either affidavit or detailed statement. Our own estimates are set in Roman figures and unmarked.

While we would greatly prefer a detailed statement of issues for a whole year, yet records for six or eight months, will, if properly signed by the publisher or some responsible person for him, ordinarily entitle the paper to a rating in accordance therewith. We say *ordinarily*, because we do not believe that the rendering of such a statement is incontestible proof of its correctness, and there are instances in which such statements, even when supported by affidavits, could not be accepted in the face of positive information to the contrary; but we believe that such instances are comparatively few in number, and in the large majority of cases a detailed statement covering a period of several months, properly signed, is *prima facie* evidence of its reliability.

It frequently happens that the publishers when sending in their orders and copy for advertisements in the AMERICAN NEWSPAPER ANNUAL inclose therewith a statement of circulation, generally accompanied by a request that the ratings of their papers in the ANNUAL may be made to agree with the figures thus given. This will not be done. Circulation

ratings are fixed before the solicitation of advertisements begins, from reports made out in proper form, and signed by publishers, or, in the event of failure to receive such reports, from any believed-to-be-authentic information in the Editorial Office.

Although the greater number of ratings are determined when copy is being made in July and August we are always willing to revise the figures as late as Sept. 30th, provided acceptable statements are sent to the editor of the ANNUAL, entirely apart from any consideration of the subject of advertising therein, with which he has nothing to do. Advertisements, however, being received up to the time of going to press, not unfrequently contain much later information than can possibly be given in the Catalogue. This will explain, in many cases, what would otherwise appear to be discrepancies between the statements made in the advertisements and the ratings given the papers in the various lists.

Circulation is not given in the following instances—where the paper has been established during the current year, or is entered for the first time in the ANNUAL; where the information received is unsatisfactory, or the reports are conflicting; where publishers have requested omission, in which case the word "Decline" is printed in the circulation column, and where the publication is devoted exclusively, or nearly so, to advertising the business or interests of the individual, business house or corporation issuing it. Papers of this latter class are designated in the Catalogue as "issued for advertising purposes," and in the County and Class Lists by the letters "Adv." in the circulation column.

We aim at strict impartiality in this important part of our work, and desiring always to avoid injustice to publishers, in our efforts to procure accurate and trustworthy information for advertisers, we will gladly receive communications from any who may consider themselves unfairly dealt with in any statement in this volume, and will cheerfully correct in future editions any mistakes made in the present one, if furnished with satisfactory evidence of error.

Papers which are believed to decline general advertising are designated in the Catalogue by the words "No Advts." in the circulation column, and are not included in the County and Class Lists.

NEWSPAPER ADVERTISEMENTS.—An alphabetical index to the advertisements will be found commencing with page 1551. A careful examination of these will result in the acquisition of a mass of valuable information which, for the sake of compactness and facility of reference, must necessarily be excluded from the Catalogue itself. We invite attention to the article on this subject on page 1416.

THE REVISION of this book for the edition of 1901 will be commenced immediately, and newspaper publishers will confer a favor by notifying us of the establishment, suspension or change of any papers within their knowledge, or by calling our attention to any inaccuracies.

—OF—

AMERICAN NEWSPAPERS

GIVING THE PLACES IN WHICH THEY ARE PUBLISHED IN THE UNITED STATES,
TERRITORIES, AND DOMINION OF CANADA, ARRANGED ALPHABETICALLY
IN STATES; A DESCRIPTION OF EACH PLACE, ITS LOCATION, RAILROAD
AND OTHER MEANS OF COMMUNICATION, TELEGRAPH AND EXPRESS
ROUTES AND BANKING FACILITIES; THE COUNTIES IN WHICH THE PLACES
ARE SITUATED, WITH THE LOCATION AND POPULATION OF EACH; AND, IN
CONNECTION WITH THE PAPERS, THE FREQUENCY OF ISSUE, POLITICS, DE-
NOMINATION OR GENERAL CHARACTER, YEAR OF ESTABLISHMENT, SIZE, CIR-
CULATION, SUBSCRIPTION PRICE AND NAMES OF EDITORS AND PUBLISHERS.

Populations in the United States, unmarked, are from the United States Census of 1890, or State Census of 1895, as indicated in the foot notes, except in Michigan, where they are from the State Census of 1894. Those marked with an asterisk (*) are estimated. Canadian populations are mainly from the Census of 1891.

Circulations from which affidavits have been furnished, are printed in **bold-face** figures; detailed statements are designated by a six-pointed star (*); when neither affidavit nor detailed statement is furnished, they are designated by a double-dagger (‡); those unmarked are estimated.

Where statement of circulation is omitted, we have been unable to obtain any satisfactory information, or the paper was established during the current year, or is entered for the first time in the ANNUAL, or else is issued for advertising purposes. The word "decline" indicates that the publishers have declined or objected to furnish any statement for publication.

County seats are indicated by a dagger(†).

According to the Census of 1890 it is the second city in population of the United States, and is the leading commercial city of the West. A port of entry, and center of shipment of western produce to the East. Its trade in grain, provisions, live stock and lumber is the largest of any city in the world. The hog and beef killing and packing industries are very large, and the manufactures are numerous and important, including extensive steel ship building works, brewing and distilling, iron, steel, wood, leather, brick, chemicals, shoes, cigars and tobacco and other industries. Chicago has a series of handsome parks, many magnificent public and commercial buildings, the University of Chicago, various theological seminaries, and many other institutions.

DES MOINES†, pop. 57,359 (F 5); POLK Co. (C.), pop. 72,888. The State Capital. On Des Moines R., 174 m. W. of Davenport. Chic., R. I. & Pac., and 6 other R.Rs. Tel. Exp. Banks. Surrounded by extensive coal deposits, and has numerous manufactures, including typewriters, barbed wire, sewer pipe, starch, glass, white bronze and many others. The coal mines employ 2,000 people. There is a very large starch factory, and important pork packing establishments. The insurance business is more extensive than in any other city west of Chicago. The shipping trade is large and important. Seat of the Des Moines College and the Drake University.

KANSAS CITY, pop. 182,716 (C 3½); JACKSON Co. (W.), pop. 160,510. On Missouri R., at m. of Kansas R., 233 m. W. by N. of St. Louis. An important railroad center, having 16 roads in all, including the Mo. Pac.; Un. Pac.; Wabash; several lines from Chicago, and others. Tel. Exp. Banks. The second largest city in Missouri, and one of the leading pork packing centers of the United States. The stock yards rank second in the country, and the trade in live stock is very great. Provisions, lumber, agricultural implements, and coal, are also very largely handled. Coal, lead, and iron ore are abundant in the neighboring district. Railroad iron, car wheels, furniture, flour, linseed oil, etc., are largely manufactured.

ST. LOUIS, pop. 451,770 (M 4). On Mississippi R., abt. 20 m. bel. mouth of Missouri. Has 20 lines of railroad, comprising nearly all the trunk lines running West, and several starting from this point. Tel. Exp. Banks. One of the leading cities of the United States, with an immense distributing and manufacturing business. Its principal articles of manufacture include tobacco, flour, beer, plate glass, chairs, carriages, saddles, agricultural implements, stoves, bricks, iron goods, boots and shoes, white lead, linseed and cottonseed oil. The commerce in coal, grain, cotton, and hog products is very extensive. Live stock is very largely handled, and many other articles are extensively dealt in. St. Louis has numerous important institutions, including Washington and St. Louis Universities, Shaw Botanical Gardens, etc., while one of its most striking features is the grand bridge which crosses the Mississippi at this point.
